Yes, this is how the SOA registrations are delivered. Similar to CLIA with multiple site, the license only lists the primary site. Go ahead and print a copy for the other site, as well.

Thank you,

Thank you Jeremy,

I see that only Cornell is listed? Is there a registration for the Tualatin site? I had added it to the multiple site form.

Sincerely,

Tamara

Tamara,

So sorry. I meant to attach this on Friday and failed to. Here it is. It is also going out in the mail today.

Thank you,

Jeremy Bliss

Hi Jeremy,

Sorry to keep bugging you but is there something I can print so that people can see these are now registered?

Sometimes it takes a while for me to get mail. It travels around Legacy too long.

Thanks so much,

Tamara

Tamara,

Here is the license. Its effective date is 06/23/2023, so you are covered to begin testing again. Please print this and hang in both locations. I will send the original I printed by mail. For now you are good to resume testing.

Thank you,

Jeremy Bliss
